

200 Lumens LED Headlamp

Super Bright LED Headlamp

KE-HL100

Railhead Corporation introduces our newest LED headlamp, the KE-HL100. This headlamp represents one of the best values on the market today by incorporating quality, performance and safety. The new KE-HL100 is one of the brightest in its class offering 200 lumens for over 10 hours of continuous use. Railhead also utilizes highly reflective material in the headband to help increase safety and visibility from all directions. Railhead understands the importance of keeping your headlamp securely fastened to your hard hat so we include four free hard hat clips with your purchase.
