

High Performing 32 Volt Locomotive LED Headlight & Ditch-light

PATENTED

KE-PAR56-32V-LED

Great For:

- ▶ Reducing your parasitic load by providing more efficient & better performing light output
- ▶ Reducing maintenance fuel, battery and labor expenses
- ▶ Eliminates cut and burn injuries while staying warm enough to melt the snow and ice

Features:

- ▶ Operating at 74VDC & 32VDC
- ▶ Dimmable
- ▶ Meets FRA standards for Candela requirements
- ▶ 3000K or 5500K color temperature
- ▶ Works in both headlight and ditch light locations
- ▶ No tethering-simplifies installation and maintenance
- ▶ Outperforms halogens
- ▶ 0.65 of an AMP
- ▶ Heat sink provides a greater longevity

Specifications:

- 50 Watt** (150-300 Watt per light energy savings)
- CCT: 3000K or 5500K** (Improved lighting output)
- Beam & Candela** Meets FRA requirements
- 60,000 hr rated life
