

Ergo-series Impact Tool

KW-4500G

Also known as the “Poor man’s pulse tool”, K&E’s Ergo-Series vibrate up to 4 times less than other impact wrench designs. Combined with extremely low noise levels and some of the best power/weight ratios produced in the world, the Ergo-Series™ tools are an excellent choice for people tired of getting beat up by their existing tools.

- ▶ High Quality Japanese INDUSTRIAL TOOL
- ▶ Built-in Oil Reservoir ensures constant air motor lubrication (3800, 4500, 5000 Series)
- ▶ One of the best power/weight ratios produced in the world
- ▶ Reduction of operator fatigue due to lightweight, minimum vibration, and low noise levels
- ▶ Patented N-Clutch design prevents lubrication loss in the clutch and minimizes wear to extend tool life
- ▶ Patented N-clutch delivers constant hitting power – does not skip
- ▶ Increased durability achieved by excellent clutches and minimum air consumption
- ▶ Built-in 4 Position Air Regulator controls torque
- ▶ Built-in air regulator controls torque output
- ▶ Precision made, heat treated parts for increased durability

Specifications:

Model	KW-4500G
Bolt Cap.	1 3/4"
SQ Drive	1"
Handle Style	Grip
Free Speed (RPM)	4,000
Impacts Per Minute	700
Max Torque	2,160
Recomm. Torque ft. lbs.	740-1,840
Weight (lbs)	24.5
Length	13 3/4"
Vibration	2.9
Avg. Air Consum.	11.0
Recomm. Hose Size	1/2"
Sound db(A)	98

Spline #5
