

18 Gauge A4 Cut Resistant Gloves

Part# RH-GL50

Railhead's new RH-GL50 work glove utilizes Railflex, our most advanced yarn to date. Our new Railflex yarn delivers ANSI A4 cut protection while being thinner and lighter than gloves with similar cut grade levels with even greater dexterity.

Features

- With cutting-edge yarn technology, this 18g glove delivers exceptional cut-resistant performance, achieving A4 cut protection
- Boasting superior dexterity, this glove is thinner and lighter compared to gloves of the same cut grade
- Free from glass or steel fiber, this glove ensures a comfortable wear without any irritation or risk of allergies
- Reinforced thumb saddle
- Exceptional comfort - incorporating a nylon/ spandex/ elastic liner and a stretchable microfoam coating
- Enhanced breathability - both liner and coating are breathable and pull moisture and heat away from skin
- Exceptional grip - sandy nitrile provides extraordinary grip performance, especially in wet and oily environments
- Touchscreen fingertips - keep gloves on your workers for improved safety

Material

MATERIAL:	Nylon and Spandex, Railflex yarn
