

2-bolt Hole Mount Red Solar Light

KE-501 R

Our KE-501 series offers a unique overhead view with 4 LEDs and a 360° dome lens to provide optimal illumination. It is completely weatherproof, vibration resistant. The 501 is lightweight in design and is ideal for flags on top of locomotives. It is our only solar light that can charge from its unique internal solar panel design. This light includes a photocell but can be manually turned on/off with push-button.

Features:

- ▶ Our most efficient SOLAR lights
- ▶ 1-hour battery charge lasts up to 4 days with NO sunlight
- ▶ LED optic lens produces 30% more light output & fully illuminates the entire lens
- ▶ Photocell activated - turns on automatically at dusk & off at dawn
- ▶ The lights should be stored in the Off position fully charged
