

Rechargeable Safety Alarm Light

Vibration Activated

Part# RH-SL2000-R

REDUCE THE RISK OF COUPLING ACCIDENTS!

The **RH-SL2000-R** combines bright and efficient LED technology with a piercing 110 dB siren that will catch anyone's attention. When vibration is detected, the flashing white LED light will activate, and the siren will sound for up to three pre-determined times before resetting and waiting for the next shove event. Recharging is quick and easy with an environmentally sealed magnetic connection on the front of the light. It takes less than 5 hours to complete a full charge and you're ready to go. A full charge will last several shifts and an LED indicator on the front will tell you when the charge is getting low.

Specifications:

Light Source:	21 LED's
Lens:	360° diamond-cut
Modes:	Flashing with 110 dB siren
Visibility:	Over 1 mile
Battery:	Rechargeable 1,000 MAh lithium polymer
Weather Protection:	IP67
Charge Time:	4.5 hours
Run Time:	Several Shifts (preliminary)
Stand-by Time:	230 hours (10.5 days)
Size H x W:	5" x 4"
Weight:	1.10 lbs

Includes:

- ▶ 3A Wall Adapter – charge four lights at a time
- ▶ Magnetic USB charging cord

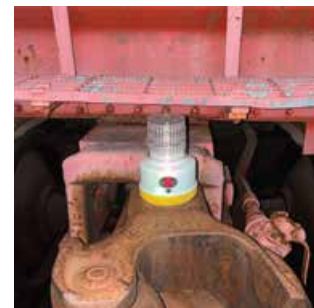

110 dB siren

LED indicator – tells you when charge is getting low

Magnetic Base

Magnetic charging port
